

The screenshot shows the Reef2Reef website interface for an Archon system. The top navigation bar includes links for Home, Inputs, Outputs, Graphs, Alarms, Webcam, System, Setup, and Standbys. The 'Outputs' page is active, displaying a list of system outputs. Each output row includes a status indicator (Off, Auto, On) and a gear icon for configuration. The 'Sols' output is currently set to 'Auto' and 'On'. The 'Bar 2' output is set to 'Off' and 'On'. The 'Rx Feed' output is set to 'On' and 'On'. The page also shows a 'Module name' field set to 'ALC' and a 'Channel name' field set to 'Sols'. The 'Current function' is set to 'AdvLight'. The 'White Intensity' is set to 30, 'Blue Intensity(AI ONLY)' is 95, 'White Ramp (in Minutes)' is 180, and 'Blue Ramp(in Minutes)(AI ONLY)' is 180. The page has a blue background with a coral reef image.
